OHIOAN DENIES HE BROUGHT LIQUOR TO U. S.

Rep. William M. Morgan of Newark Laughs at Reports

FOLLOWS JUNKET TRIP

Official Washington May Inquire into Reports of Free Customs Entry

BULLETIN

NEW YORK, March 28—Congressman F. H. LaGuardia of New York made no bones today of the fact that he had liquor in his possession when he boarded the Panama liner Cristobal to return to this port with 14 other members of a congressional party, one of whom—Congressman William M. Morgan of Ohio—is alleged to have landed with bottles of liquor. Morgan however flatly denied the charge.

But Congressman La Guardia had no scruples about admitting that he started from Haiti with a pretty fair supply of booze. La Guardia drank the liquor en route, he explained, and besides he was not on government business at the time.

"I don't know anything about Congressman Morgan's case," said La Guardia, "but I do know that none of us were entitled to free entry."

• • •

NEW YORK, March 28—Customs officials here intimated today they would investigate sources of a report to the effect that Rep. William M. Morgan, representative of Newark, Ohio, had said he had four bottles of liquor in his baggage when he arrived here Monday on the Christobal from Panama with a delegation of congressmen. They said no report of any such case had been made to Washington so far.

Representative Morgan has made a general and categorical denial in Washington that he had any liquor or that he either seriously or laughingly said he did have some in his baggage. Customs officials here want to know whether any member of the staff which examined baggage of passengers from the Panama ship Christobal stated that Representative Morgan had said he had four bottles of whisky in his bag in order to facilitate examination of his effects.

Mr. Morgan, according to his closest friends and acquaintances, has long been an ardent and active dry. He was a strong supporter of prohibition legislation ever since he has been in congress and these friends merely laughed at reports of his having liquor in his possession at any time.

Washington Hears Rumors, Stories

WASHINGTON, March 28—Official Washington was intensely interested today—but also discreetly silent—concerning stories published in New York that a junketing party of congressmen returning from Panama were allowed free entry into the port and that an Ohio member of the party had admitted possession of four bottles of liquor which he was permitted to keep.

Rep. William M. Morgan, Republican of Ohio, who was a member of the party and who also is an ardent dry from the Anti-Saloon League belt of Ohio declared today it could not have been him.

"You just say that I didn't have four quarts of liquor in my baggage," Morgan declared today. "The charge is absolutely without foundation.

"The examination at the customs office was somewhat cursory but nothing like liquor was discovered in our possession. I don't understand how such a story got to be published as I never took a drink in my life."

Morgan supported and voted for the drastic Jones law several weeks ago under which transportation of

GRAF COMPLETES ITS HOLY LAND JOURNEY

Big Airship Back in Hangar After 5,000-Mile Journey, Aloft 81 Hours

FRIEDRICHSHAFEN, March 28—Completing her 5,000-mile air journey to the Holy Land and back the Graf Zeppelin returned to her hangar here at 10:17 a. m. (4:17 a. m. E. S. T.) today.

The majestic "Queen of the Air" had been aloft 81 hour and 21 minutes without making a landing.

The 60 persons aboard the ship appeared to be perfectly fresh after their long journey. Among these were 28 passengers, three of them women.

The airship made remarkable speed during some parts of the journey at times reaching 112 miles an hour. On the return trip however while passing over Austria and Hungary, head winds and gales reduced her speed.

SIX CARS DERAILED AND GO OVER EMBANKMENT

NORTH CHARLESTOWN, N. H., March 28—Six cars of an eight-car accommodation train on the Boston and Maine railroad were derailed here today and two cars went down an embankment.

A score of passengers were shaken up but there were no serious injuries. The only passenger cars on the train were a coach and one Pullman sleeper. The cause of the derailment was undetermined.

TAKE 300 PERSONS OFF GROUNDED BOAT

Transylvania Crashes Upon Ledge of Rocks 15 Miles Off Cherbourg

CHERBOURG, March 28—The liner Transylvania, returning from a world cruise with 300 passengers on board, crashed upon a ledge of rocks 15 miles off Cherbourg at 4:30 o'clock this morning but all the passengers were rescued by tender.

The ship began settling by the bow with a sharp list.

After five hours of desperate effort Capt. Robert Erskine managed to get the liner clear of the reef.

Meanwhile the passengers, aroused by the shock, fled from their cabins to the deck in their night clothing. They were assured that there was no danger.

Tugs from Cherbourg landed all the passengers safely while tugs took the Transylvania in tow and sought to pull her into the roadstead.

Late in the morning the tugs were making steady progress in getting the crippled liner into the harbor.

FEDERALS PREPARE TO ENTER JIMENEZ

No Rebel Opposition Anticipated by Government, City Is Evacuated

MEXICO CITY, March 28—A federal column of 15,000 troops commanded by Gen. J. Andreu Almazan at dawn today prepared to enter the city of Jimenez, Chihuahua.

No rebel opposition was anticipated by the government for federal aviators reported that most of the rebel troops in the city had evacuated and were retreating northward.

Gen. Eugenio Ortiz [illegible], the federal vanguard, reported that he was within a few miles of Jimenez and ready to take possession of the city.

In official circles here the evacuation of Jimenez was taken for granted. President Portes Gil stated the rebels were simply following the same tactics they have followed at Torreon and other places in retiring before the federal advance.

CRACK SAFE

One Held, Two Escape in Attempted Country Club Burglary

CLEVELAND, March 28—One alleged burglar was arrested and two others escaped after cracking a safe in the Arcadia Country club [illegible] hurst village early today.

James Andrews, [illegible] club, reported he was held [illegible] three men and tied with [illegible] window shades. An anonymous phone call brought Marshal [illegible] Widener to the scene just as [illegible] the burglars had succeeded in [illegible] ing the combination from a safe with sledge hammers.

The two fled but the marshal captured a third man who was seated behind the wheel of an automobile parked outside.

CONSIDER MOVE TO SET ASIDE THEATER SALE

Plans for Future Management of Photoplay Houses in Doubt

AWAIT COURT ACTION

Charnis To Seek Leases If Bid on Property Is Accepted

[illegible] the receivership [illegible] property of the Marion Photoplay [illegible] apparently was [illegible] The [illegible] when it was [illegible] some [illegible] that attorneys for the former theater company might file a motion [illegible] to have the [illegible] set aside.

There were only two bidders when the property was sold yesterday. The [illegible] bid was $1,000 offered by Phil Charnis of Bucyrus, representative of the Standard Theater Co. of Cleveland. The other bidder was [illegible] Marks, owner of the building in which the Orpheum theater is located and president of the Marion Savings bank, holder of a mortgage of about $[illegible] on equipment sold at the receiver's sale.

Await Court Action

Charnis' bid will probably not be confirmed or rejected by Judge George L. Seofield of the common pleas court before Monday. In the meantime affairs of the receivership will be in an unsettled condition according to reports from J. J. Huebner, receiver, Charnis and attorneys for the Photoplay company.

Huebner stated today, however, that the theaters would continue to operate under the receivership for [illegible] days the next 10 days. The [illegible] filed a Sunday show at the Marion and Grand and Orpheum by Judge Seofield two weeks ago will continue in effect as a result of an additional order by the judge following the sale.

Charnis Outlines Plans

In a statement today Charnis said that in case his bid was allowed to stand he would open both the Marion and the Grand provided he could obtain the leases for the theaters. He was to come to Marion this afternoon from Bucyrus to investigate the possibility of obtaining leases for the two theaters.

Sound pictures for the Marion were assured by Charnis in his statement in case he is successful in his attempt to obtain the lease. Charnis assured the operation of both the Marion and Grand.

Other theater interests are known to have opened negotiations for a lease on the Marion. Outcome of the case will probably depend on Charnis' trip here this afternoon.

Sale of the personal property of the theaters yesterday ended an eleventh hour attempt to lift the receivership and allow Huebner to operate the theaters as a trustee for the creditors. Judge Seofield refused to sanction the move when the receiver and attorneys obtained consent of less than half the creditors of the company.

CARL E. MARKERT DIES OF PNEUMONIA

Widely Known Young Man Claimed at South Prospect St. Home

Carl Edwin Markert, age 23, an employe of the Marion Steam Shovel Co., and widely known among Marion young people, died yesterday afternoon at 5:00 o'clock at his home, 409 South Prospect st. Death came after a week's illness of influenza which quickly developed into pneumonia.

Mr. Markert, who for the last two summers was employed by the United States government in its fight against the corn borer, had been with the Marion Steam Shovel Co. only a little over three months.

He was born in this city on Oct. 20, 1905, the son of Charles A. and Nellie Crook Markert. His mother and father, both of whom survive him, are lifelong residents of Marion county. His father was formerly manager of the Markert China Store, one of Marion's oldest business places.

Carl Markert was a graduate of Harding High school in the class of 1924 and also attended Ohio State university for two years. He was a member of Emanuel's Lutheran church and during his high school and college work was an active member of the local De Molay chapter.

He is survived by his parents, one sister, Ruth, and a brother, Robert, at home. His sister is a teacher in Forest Lawn school.

Funeral arrangements are not fully completed although they will probably be held Saturday afternoon at 2 o'clock at the Markert home.

SPANISH AVIATORS TAKE OFF FOR RIO

Leave Bahai for Original Destination of Transatlantic Flight

BAHIA, Brazil, March 28—The Spanish aviators, Captains Ignacio Jimenez and Ignacio Iglesias, hopped off for Rio De Janeiro at 8:20 a. m. today.

A huge throng at the Camassary flying field wished them Godspeed. Both fliers had completely recovered from the fatigue of the 4,000 mile flight from Seville, Spain, and waved gaily to the crowd as they took off.

A tremendous reception awaits them in Rio De Janeiro, the original destination of their flight, which is 800 miles south of here.

SINKING OF VESSEL IS FIRST PROBLEM

Stimson Must Defend Coast Guard on Opening Day in Office

WASHINGTON, March 28—Henry L. Stimson, when he assumes his duties as secretary of state Friday, will be confronted almost immediately with the task of attempting to defend the treasury department's coast guard against onslaughts from three foreign governments, Great Britain, Canada and France.

At the same time he will have to justify the application of the domestic laws of the United States and the anti-rum smuggling treaties permitting search and seizure of suspected vessels beyond the three-mile limit to the sinking by gunfire of the Canadian schooner I'm Alone.

The action of two enlisted men of the coast guard commanding the cutters Walcott and Dexter in exercising the authority usually given only to a commissioned officer has seemingly engaged at least two government departments into a hopeless tangle as to whether the sinking was proper under the tariff act or under the Anglo-American anti-rum running treaty. The treasury takes the former as its authority and holds that the state takes the other.

The Canadian government, no matter by which instrument the act is to be defended, will insist on settlement of the controversy on a firm basis of international law.

MOTHER AND BABE ARE KILLED IN ACCIDENT

COLUMBUS, March 28—A mother and her small baby are dead and three persons are recovering from injuries at Johnstown, near here, today as a result of [illegible] automobile crash near that town last night.

JENSEN STILL ALOFT AND NEARING GOAL

Flier May Yet Remain Up Long Enough To Break Record

ROOSEVELT FIELD, N. Y., March 28—Martin Jensen, flying his Bellanca monoplane, "Green Flash," may yet remain aloft long enough to break the solo endurance record set by [illegible] Royal V. Thomas.

Aviators at the field here at 8 a. m. were preparing to take a flier up with a message [illegible] Jensen. Jensen flew so low that he had much [illegible] than it appeared [illegible] The endurance flier dropped [illegible] in which [illegible] and he will [illegible] running low and his motor [illegible] throttle down. [illegible] the rain which had hampered Jensen through the night ceased falling shortly after 8 o'clock.

Aviators at the field said Jensen's motor would not throttle down because it was equipped with a [illegible] for warmer weather.

Jensen must remain in the air until [illegible] to break the existing record. At 12 o'clock he had been flying continuously for [illegible] hours.

SAVES BOY'S LIFE

Man's Quick Action Praised When Lad's Leg Is Severed

TOLEDO, March 28—The quick action of Henry Johnson, 30, in applying an emergency tourniquet made from a necktie to the leg of Joseph Barbar, 9, which had been severed at the knee only a few moments before, was today credited with saving the life of the lad.

Barber's leg was cut off when he stumbled under the wheels of a Michigan Central train at a crossing here.

Johnson, seeing the accident, ran to the boy, and tearing his necktie off, made an emergency tourniquet, which stopped the flow of blood.

The boy, according to police, never cried out or even whimpered as he was rushed to a hospital.

WHO'S WINNER?

Dayton Attorney and Judge Still Teeter-Totter for Bench

DAYTON, March 28—"Tables were turned" again in the fight over the election-plea judgeship here, and today it left the citizenry wondering who is "going" to get the final decision.

After the November election, the unofficial count gave Attorney W. S. McConnaughey the judgeship.

At the official count, Judge Robert C. Patterson was declared reelected by two votes.

McConnaughey then carried the case to court.

A special court of appeals decided on a recount.

It was completed last night and announcement today said that McConnaughey led Judge Patterson by a 45 majority.

The court will give the final decision tomorrow.

CALL MEETING ON COMMUNITY CHEST PLANS

Proposed Charity and Welfare System Indorsed by Central Labor Union

SEEN AS BEST PLAN

Union Expected To Be Represented in Chest Organization

The [illegible] movement for a chest for Marion was given [illegible] indorsement of the Marion Central Labor Union at its meeting in Labor hall last night. The union gave its sanction to the plan as the best means of raising funds for educational and charitable work in the city.

Alfred L. Fraser and C. A. Hilton, both past presidents of the Central Labor Union, led the discussion on the community chest question before it was sanctioned by the body.

If a community chest is organized here Central Labor Union may be represented in the chest organization. Speakers for the chest plan favored having the union represented.

April will be no accident month in Marion as well as in other parts of the state. The safety committee of the Central union will cooperate with local trade unions in an effort to prevent accidents in April.

Following the regular meeting last night a [illegible] smoker and open forum was held in charge of Chairman C. A. Hilton. The next regular meeting will be held next Wednesday.

Plans To Be Taken Up at Conference of Local Business Men

SET FOR SATURDAY

Dayton Community Service Leader on Program for Address

[illegible] the representatives of the [illegible] community chest [illegible] will take place Saturday when a [illegible] of Marion business men and civic leaders will meet to hear the chest plan outlined.

Letters to these leaders were sent yesterday by J. F. [illegible] president of the Marion Shrine club, who had been named temporary chairman of a Marion club committee to study the organization of a community chest.

Dayton Man to Speak

The meeting will be held at 7 o'clock Saturday night at the Marion club and will be addressed by Arch Mandel, director of the Dayton Community Service.

Mandel is generally regarded as one of the outstanding community chest men not only in this but throughout the country. He has been with the Dayton organization since its organization.

Mr. [illegible] letter read as follows:

"A committee of the Marion club, of which I am a member, has requested me to extend to you an invitation to meet at the Marion club at 7 o'clock Saturday evening, March 30th, for the purpose of discussing the advisability of organizing a community chest drive in the city.

"We shall have with us on that evening a well informed speaker who will outline to us the purposes and advantages of such a drive."

The action taken by the Marion club marks the culmination of much discussion on the feasibility of a community chest for Marion in the past ten months.

With several organizations favoring the chest plan leaders have made investigations of systems employed in other cities and it was following these inquiries that the Marion club decided to open Saturday's meeting.

ALLEGED SLAYER OF MAN BREAKS DOWN

Loses Bravado Maintained Following Murder of Husband, Denies Act

HARTFORD, Conn., March 28—Mrs. Olive Adams, the chloroform slayer, was stricken with remorse today.

Gone was the bravado she evidenced when she admitted to the police that she had murdered her husband, Harry Adams, young mild-mannered cashier in charge of the local weather bureau, by sprinkling chloroform on a handkerchief and putting it to his face as he slept. No longer was she saying "I'm glad he's gone." And her defiant smile had turned to an expression of fear.

"Oh, don't believe what the papers say—I'm not as bad as painted," she cried in her cell when her mother-in-law, Mrs. Nellie H. Adams, paid her a visit bringing the young prisoner's son, Arnold, 11 years old.

Mrs. Adams began "hedging" on her confession. "I didn't do it," she moaned petulantly. "The police made me say those things."

The motive for the slaying—whether it was jealousy or a desire on the part of a young wife to get away from a husband she had tired of—was the question puzzling the authorities as they proceeded with their investigation of the strange case preparatory to bringing Mrs. Adams to trial.

67 HELD AFTER DRY RAIDS IN OHIO CITY

Steubenville Jails Filled As Authorities Complete Campaign

STEUBENVILLE, March 28—In the biggest series of raids ever staged in this county, federal, state, county and city authorities arrested 67 persons here last night, all alleged violators of the prohibition law, according to a checkup today.

Armed with 100 search warrants, the officers started out early last night and within the first two hours they had taken more than 50 persons into custody.

Courts stayed open during the night so as to allow those able to arrange their bonds to plead to the charges. Others were confined in the county jail and it was overflowing today.

These series of raids are believed to have climaxed the activities of federal authorities who have been conducting raids in this vicinity for the past two months.

LABOR FOR ARNOLD

Convicted Kidnaper Must Push Wheel Barrow or "Tote" Bricks

Columbus, March 28—"Elias Arnold has been assigned to the construction company."

That was the word given out by Ohio State penitentiary officials here today.

To most people that signifies very little, but to the convicts within the confines of the penal institution, it means—hard labor.

Convict number 60107, who is serving a 20-year term for the kidnaping of four-year-old Melvin Horst, Orrville boy, must share the lot of the construction company, a cell by night, and during the day, pushing a wheelbarrow or "toting" bricks. Arnold is 65 years of age.

GAS TAX INCREASE BILL IS APPROVED

House Committee Also Recommends Passage of Rural Police Measure

BULLETIN

COLUMBUS, March 28—Gov. Myers Y. Cooper today stood pat on his refusal to approve the proposed increase in the state gasoline tax as a method of obtaining additional revenues for highway improvements.

The governor indicated he will not alter his position in this matter unless it is clearly shown that a strong statewide sentiment exists in support of increasing the gas tax to four from three cents per gallon.

• • •

COLUMBUS, March 28—Recommendation that the Ohio legislature pass the Sullivan-Bostwick bill, providing for an increase in the state gasoline tax to four cents from three cents a gallon, and the Creighton bill, to create a state rural highway police force, will be contained in reports scheduled to be submitted by the house highways committee at this afternoon's session of the lower legislative branch.

Decision to report these two measures out was reached at a session of the committee last night. The rural police bill was introduced by Representative O. S. Creighton, Marietta. It differs in numerous respects from the rural police measure, introduced by Senator Joseph Ackerman, Cleveland, which passed the senate.

As agreed to by the committee, the Sullivan-Bostwick bill includes portions of similar measures introduced by Representatives Dallas Sullivan, Union county, and L. R. Bostwick, Madison county.

Although friends of the bill to increase the gasoline tax predicted that it will pass the house by a large majority, other legislators claimed that the senate will not pass it, unless Gov. Myers Y. Cooper indicates that he favors the bill.

Lamont Doesn't Believe Stock Market Recession Would Hurt Business

WASHINGTON, March 28—Stock market activities, even with a big recession in values, should have no effect on commerce and industry, Secretary of Commerce LaMont declared today in predicting that American business in 1929 will show no slacking off from the remarkable records of last year.

While Lamont anticipated no serious crash in the stock market, he appeared [illegible] industry was involved.

Man Seeks to Shoulder Blame in Charge Against Relative; Now Both Are in Jail

Efforts of Roady McGinty, Fairground st., to obtain the release of his brother-in-law, Layton G. Peoples, from jail, failed yesterday when he appeared in municipal court to take the blame for the situation which has held Peoples behind bars under a $500 fine for more than two weeks.

McGinty, however, did succeed in getting himself in jail on a charge of illegal possession of intoxicating liquor.

Peoples was arrested more than two weeks ago after Patrolman E. G. Macken fired five shots at an automobile which he claims Peoples was driving. Shortly after the shooting the car was found abandoned in the north end of the city. A small quantity of liquor was found in a jug in the machine.

OBITUARY

Walter Edward, son of Samuel and Lucy Martin Bricker was born at Green Camp, Marion County, Ohio, July 23, 1883 and passed to the Better Country, March 11, 1929, aged 45 years, 8 months and 9 days.

He was united in marriage with Miss Grace McColly, May 15, 1904. To this union one daughter, Marjorie, was born. Mr. Bricker could truly be said to be a home loving man. He was never so happy as when in the company of his dear wife and daughter. While he was a very sociable man and fond of the companionship of his fellows, yet the home circle held charms for him not found elsewhere. His love for his wife seemed to deepen with the years, especially did his devotion to her become tender and loving since he came so near losing her by death in 1918, an experience which neither he or his wife or any of his friends could ever forget. And Marjorie the daughter was as the apple of his eye.

Filial regard also marked his devotion to his parents and members of his family. He was ever dutiful and respectful to his parents, and to make them happy was ever his aim in life. In him, they had a strong staff upon which to lean in their declining days. His very best was ever at their command, and to please them was his delight. It is written that "a brother is born for adversity," but this was an exception to that rule. Walter, Frank and Paul Bricker was as companionable brothers as ever were reared in one family. Their regard for each other was beautiful to behold, and soul refreshing to be privileged to share.

Mr. Bricker was a member of the Methodist Episcopal Church at Green Camp for many years and was held in the highest esteem among his associates in that communion. He was a member of the Official Board and for some years was Sunday school superintendent. It will not be amiss to put down here how he was led to accept the superintendency of the Sunday school. Upon the retirement of Mr. George Hedges, who had served in that office for about 10 years, it became a question as to who would be the man to succeed him. One day as his pastor, Rev. A. L. Vandergrift was driving into the country he was impressed that Walter Bricker was the man. Going at once to his home he broached the subject to him. Mr. Bricker said he would take the matter under advisement, and report on the following Sunday morning, which he did, saying that if it was the wish of the school, he would serve. On being asked what was the determining factor that led to his decision, he said that when Grace was at her worst he had promised God that if he would spare her to him he would do anything the church might ever ask him to do. So the mantle fell from the tried and true shoulders of Mr. Hedges upon the truly sincere shoulders of Mr. Bricker.

Removing from Green Camp to Pleasant Hill he was soon elected to the superintendency of the Sunday school there and proved an able leader among that people. Removing to Youngstown, O., he, his wife and daughter placed their membership in the Trinity Methodist Episcopal church where it remained at the time of his death.

As a friend, Walter Bricker was unsurpassed. His cheery smile and merry laughter made one want to be good and do good. No man ever scattered more sunshine than did he. Well known and most beloved are proper terms to be used about him. He will be sadly missed though lovingly remembered by a large circle of friends.

He leaves to mourn their loss, a loving wife and daughter, an aged father and mother and two brothers, Frank and Paul, and many other relatives and friends.

"'Tis hard to take the burden up,
Where he has laid it down;
He sweetened all the joys of life,
He softened every frown,
But oh 'tis good to think of him,
When we are troubled sore;
Thanks be to God that he has been,
Although he is no more.

Jap Agent Takes Training Course at Local Factory

... build, operate and sell ... the Marion Steam ... K. Ban, representative of ... shi Co. of Tokio, Japan, ... time a few months in ... Mitsubishi Co., has the ... for Steam Shovel Co. ... Japan and part of China, ... have the sole agency for ... many other American products.

Mr. Ban came to Marion about two months ago, making his first trip to America in January this year. After arriving at San Francisco, he went to the New York office and was sent to Marion. He will leave Marion in July to return to his country in Japan.

The contract to handle the Marion Steam Shovel Co. products in Japan was just recently signed, but not through the efforts of Mr. Ban. The sales organization of the Mitsubishi, which operates many other industries in Japan, is around 60 and enables them to reach every part of their country.

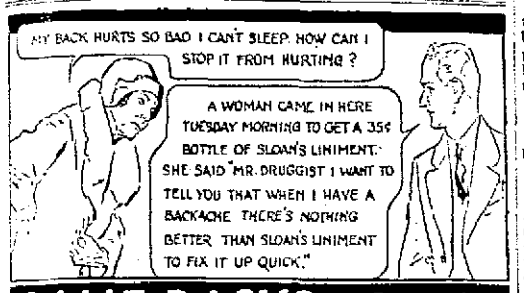

When questioned on the wage earning capacity of Japanese, Mr. Ban first explained that the yen, or standard of money there, is worth about a half dollar, but that corresponding lower prices in Japan give the yen about the same purchasing value there as the dollar in this country. Workers earn from 3 to 5 yen a day, working 8, 9, and 10-hour days.

Prices of American products are high, due to the import duties and costly freighting, he said. American-made automobiles are very popular there, but expensive, he said. A new Ford costs 2,200 yen, or about $1,100. Gasoline sells for 60 sen a gallon, a sen being about half the value of a cent.

Saka, or Japanese wine made from rice, is the favorite beverage there, he said. This is about 15 per cent alcohol. English whisky and French wine are imported, and all beverages are popular.

Japan, with its cities, trains, electric cars and autos, is similar to the United States. The streets are well paved, they have large hotels and beautiful homes, although the architecture is much different.

Jubilee's Pardner

A Story of Boyhood Adventure

BY JUDD M. LEWIS

TOMORROW will be Friday, and then it will be Saturday, and if it is as cold and windy then as it is now I think I will stay in the barn all day and let the cows go out and play instead of me. When I went to let Jubilee down this morning there was drops of rain on the outside of the pane, and they looked kinda different from rain, so I put my hand up and felt of them when I had let Jubilee down and pulled up the rope, and they were frose solid. I wasn't surprised. I only had my shirt on and I was froze almost as solid as they were.

When I had emptied the ashes and got the fires going and went out with the milk pail Jubilee was running around the yard like he was racing with himself, and his breath looked like smoke, and when I got to the barn the whole front of it looked like it was covered with glass because the wind had been blowing rain against it all night and freezing it, and I had to ... the back of its neck, and ... the belt tang and I had to kick half a brick loose that was frose ... half out of the ground, and beat the ice away from the latch on the barn door before I could get in to feed the dumbed brutes and milk them. Cows are funny pieces of machinery. You put a lot of bran and chopped hay in one end of them and take a bucket of milk out of the other end of them and take it in the house and steam it, and then you go to school or somewhere all day and come back at night and put in more feed and take out more milk. I have seen lots of smart men, but I never saw one that can do what a cow can do.

When we got to school there was a surprise there for us, for Podgrass Dooley was there. He was all wropped up and was standing by the gate, and he opened his overcoat and the bed comforter he had around him to show us how skinny he is. I put my arms around him and lifted him and he didn't seem to weigh any more than Annabelle Lee. Some of the gang brung him in an old baby buggy. He lays back in it and his legs hang out at the front end and they wrap them up and take turns pushing him. He had a big fella with him, and when they got him ready to go Podgrass told the big fella that I was the fella he said he couldn't lick, and the big fella come fourist me with his fists doubled up and his chin out, and when he stopped to set himself Hanie dropped down on his hands and knees back of him and I hung one on his chin and the next he knew he was ... [illegible] ... what I will give him when he gets well. He can't monky with me.

SCIENCE learned a lesson from

THE TYPHOON

We put it to work..that's *one* secret of

SOHIO'S extra purity

TYPHOONS suck up water as they blow across the sea. The wind's tremendous velocity decreases as it approaches land. No longer sustained by terrific speed, the water drops to earth. This is why heavy rains invariably accompany hurricanes and typhoons. *Long ago science discovered this phenomenon.* Now its principle has been put to work to make Sohio pure.

The oil from which Sohio is made is vaporized by heating to 1000° Fahrenheit. Under 1000 lbs. pressure, it is forced through miles of pipe at terrific speed. At a certain point in its progress, this vapor is projected into a huge expansion tank. Immediately its velocity decreases. An action similar to the hurricane's releasing rain occurs. Impurities drop to the bottom of the tank. The vapor is then carried on through other pipes for even further purification. That's one secret of Sohio's *extra* purity, extra volatility.

Sohio is sold at Red-White-and-Blue Standard service stations and dealers' pumps everywhere in Ohio.

Girls Spend More Than Boys During School Term O. S. U. Survey Shows

Highest Cost Listed by Girl at $2,689 for College Year

Marion Star Bureau
Ohio State University

COLUMBUS, March 28—What price education?

That's a question which has an important place in the minds of many fathers who are financing their offsprings through colleges and universities in the country.

Believing that the question puzzled many fathers with sons and daughters at Ohio State university Professor Cecil C. North of the department of sociology conducted an investigation recently which resulted in unexpected discoveries.

While the Ohio State university catalogue places $615 as the cost of three terms stay at the university Professor North's investigation of 200 students revealed that the average out of town student spends $1,105 while the student residing in Columbus spends $571 for the nine months schooling.

Boy Lists $331 as Lowest Cost for One Year

Boys were found to be less expensive to their fathers than girls. One of the girls questioned claimed that her expenses for each school year amounted to $2,689 and that she lived in Columbus. The lowest amount spent by a student was that of a Columbus boy who placed his expenditures for the year at $331. An out of town student stated he spent about $412 a year.

Girl Spends $2,305

The highest amount spent by an out of town student was by a girl and amounted to $2,305.

Room and board were the greatest expenditures for most of the students although clothing costs ran high for most of the girls. The budgets showed that boys spend less for clothing than do girls.

Gifts and philanthropic donations were a very small item in the budgets of most students being nil in some cases.

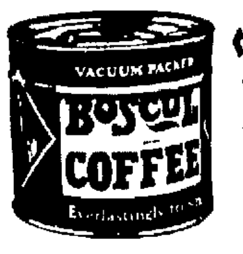

Concerning the costs of organizations such as fraternities and sororities the amount spent ranged from five dollars to $100. Most girls budgeted no small amount for candy while dates and tobacco were costly luxuries to many of the boys. Only two girls ... the expenditure for tobacco.

The expenditures of the athletes it was noted ran slightly higher than those of the average student. It was found also that working students lowered their expenses greatly by many ... by earning room and board.

Daily Proverb— Great minds are easy in prosperity and quiet in adversity

Wouldn t it have been great had we but known in time that all that was needed to win the World war was the right brand of cigarets

It s a bit hard for the average reader to understand how it happened that in equipping themselves for the raid which resulted in the slaying of that housewife out in Aurora Illinois the raiders neglected to take along a couple of cannon

The Ohio house taxation committee has recommended for passage the bill of Representative Sharp of Hardin county to tax chain stores on a sliding scale from five dollars to $210 annually And thus we have recalled to us that old one about the consumer paying the tax

Colonial officials at Nassau are said to have advised Miami transportation companies that Bahama ports are closed to Scarface Al Capone Can it be that those British colonials are deliberately trying to affront one of America s distinguished citizens?

Legislative Resort to Secret Ballot

The compulsory Bible reading bill which tied the legislature in a knot four years ago, was unceremoniously killed here today in the schools committee of the house

Such was the introduction to a story sent out from Columbus Tuesday by a staff man of the Cleveland Plain Dealer and printed in that paper Wednesday

The story went on to say that the pet measure of the Ku Klux Klan and the Junior Order of United American Mechanic is irrevocably dead having been killed by a twelve to one vote of the committee overwhelmingly rural in membership to postpone the bill indefinitely which the story explained in legislative parlance means its death Continuing the despatch read

Perhaps the vote would not have been so convincing had not the committee hit upon the device of taking a secret ballot A basket was passed and members asked to drop in a slip of paper recording their votes Yes was to mean death and no was to mean continued life for the measure

When the count was taken great surprise was shown by both members and newspaper men present that only one vote was cast for the Klan bill The committeeman who cast this ballot would not come forward and give himself up

We can recall frequent cases when action has been taken by various legislative bodies without a roll call usually it may be taken for granted, to cover up the individual positions of the members of the body voting but so far as we can recall the house committee by its secret vote in this case sprung something of a novelty in the way of determining the fitness or unfitness of a proposal for the consideration of a legislative body

But whether the plan followed in this case by the house school committee is unique as we assume it to be or otherwise we are frank to say that we do not esteem it highly

A proposal is either good or bad If it isn t good if it is merely indifferent it is bad for a law of indifferent merit is inevitably a bad one even if it does no more than crowd our statute books If the proposal in this case were good the members so impressed by it should have had the courage to have voted for it openly If it were bad and twelve members of the committee must have been of that view the twelve in question should have been sufficiently courageous to have come out in the open and voted against it

The electorate of Ohio can hardly be proud of legislators who resort to such an expedient to conceal their attitude on a proposed bit of legislation.

A Variation of an Old Game.

Sometimes that which may be read b... ... the ... is more ... than ... be ... by the ...

This thought came to us a day or two ago when reading a story from the "Moscow Pravda the official paper of the communists in which it was for the first time admitted that famine stalks in many parts of Russia that food conditions are growing serious all over the unhappy land as the result of the collapse of the governmental agencies ... to ... the ... minds of the ... population which ... unable to bear their dislocation which ... out of communistic red tape and in the ... additions in ... of growth ... are ... growing worse

I might ... that ... with the opening of spring ... current would be shown but spring in Russia simply complicates the situation but in former land of the czars is not one of highways Highways between the large centers of population as we know them here are unknown there The only transportation means between villages there are the railroad lines which are impassable during the thaws of spring and the rains of fall being serviceable to the villagers in summer and winter only

But that which may be read between the lines to which we have referred may be found in the Pravda s announcement that the government is not only unable even to think of supplying bread to the famine districts because of the magnitude of the undertaking and the catastrophic shortage of breadstuffs but is also planning to reduce the bread rations in the preferred list of cities in which bread and other foodstuffs may be obtained

Let us now look into the list of cities and districts which are preferred What do we find? In every instance they are the cities and districts in which the great majority of the labor unions if not all of them are represented Which are they? Moscow Leningrad Ivanovo Voznesensk the center of the textile industry Tula Sormovo the center of the iron industry Nizhni Novgorod which is the industrial center of the Volga district Beyetto the machinery center and those districts in the provinces of Vladimir Yaroslav and Briansk which have been industrially developed And in all these cities and districts only the favored ones can get rations at the government stores

How does it come that these cities and districts are favored with the blessing of soviet preference? The Pravda does not say but the answer is not at all hard Go over any of the accounts of their trips given by delegates back from Russia after being shown about by soviet officialdom and it will be found that this list includes the cities and districts mentioned by them as having been visited It is the plan of the soviets to make these points on their officially conducted tours This explains in part the wide variance between the reports carried back to their home lands by members of delegations thus conducted and the reports of individuals who have been able to travel away from the official path thus beaten and getting out of Russia have told of what they saw while there

Within a few weeks possibly within a few days a party of British laborers will leave for the land which boasts Liberty and Equality for all Now here is the proof of the pudding Upon its return to England its members will tell of their experiences See if they do not tell of their visits to the cities and districts herein named We make the prediction that they will

In a word the soviets are playing a variation of the old moth eaten game of salting the mine or that equally old game—now as generally abandoned as it was at one time generally worked—of placing a layer of choice apples at the bottom of the barrel filling up the body with runts wormy and other indifferent apples and topping it off with another layer of choice fruit

Poisons Cause of Sciatica.

BY ROYAL S COPELAND M D

In the country they talk about sciatic rheumatism The doctors call the same ailment sciatica

There is a big nerve running from the buttocks to the back of the thigh It supplies what we call the hamstring muscles It is a very broad and thick nerve starting inside the pelvic cavity

This is the sciatic nerve and when it is irritated or inflamed we have sciatica or sciatic rheumatism When this ailment is present there may be pain in the hip thigh and all along the back of the leg to the knee and even lower

With every movement of the leg and on sitting down the pain is made worse The agony may be all along the course of the nerve or it may be worse in spots Such places may be extremely sensitive to touch

The victim of sciatica is equal to a barometer He knows when there is to be a change in weather because his pains are worse before a storm At night too he suffers more

Because of the pain and the fact that it is made worse by movement every effort is made not to move it a bit more than absolutely necessary In consequence the muscles may waste away considerably The affected leg may become considerably smaller than the other

There are lots of things that must be included among the causes of sciatica We will speak first of the infections

I have told you many times that the absorption of body poisons will do harm Among the evil effects are the irritations and inflammations of the nerves including the sciatic ... gums abscessed teeth infected tonsil disease of the gall bladder a chronic running ear fermentation in the bowel—all of these and any one of them is capable of developing poisons which may set up disturbances in the nerves or in a single nerve like the big sciatic

The poisons of gout and diabetes the physical effects of chronic alcohol ... poisons from any source—all these are factors in the causation of sciatica This body of ours will not tolerate the constant absorption of substances which do not belong in the human system

Women are much more likely to have trouble in the pelvis than men are The uterus and ovary may be involved in abnormal growths or inflammations As a result there may be such swelling, or weight as to cause pressure on the root of the sciatic nerve Then there is developed a disturbance of the nerve with all the painful symptoms of sciatic rheumatism

Men who suffer from trouble within the pelvis or in this region A large prostate gland may among its symptoms have sciatica as a complication

Accidents with injury of the nerve may be followed by the painful symptoms After a fall a severe jolt or a blow there may be sciatica

Exposure to cold is always included among the causes and ... it ... be regarded as capable of making trouble in this important nerve

Time and space do not permit an extensive discussion of treatment I do ... how necessary it is to ... whatever that may be ... is the first step in the cure

On another ... I will discuss more at length the treatment of ... and ... of ...

Both ailments are distressing and require medical care which the family ... will give

SENATOR COOLIDGE?

The Boston Transcript gives three reasons why suasion or force should be used to nominate Calvin Coolidge for the senate in 1930 as successor to Senator Gillett They are that Mr Coolidge needs a job that Massachusetts needs him and that he is his party s only hope in an off year when any one of at least three Democrats could enter the contest with excellent prospects of victory The second of these reasons would seem to be sufficient although Massachusetts would not ... be benefit The country needs Mr Coolidge and a lot more like him in the senate as much as his adopted state does

Any state in the union would be honored by obtaining a seat for Calvin Coolidge This is not because he has been president but because of the kind of president he has been The qualities that preeminently fitted him for the White House are sadly needed on Capitol hill Common sense and a disinclination to talk without having something to say are merits for which the senate is not conspicuous Whether or not Mr Coolidge as a senator would add to the reputation he established as president is another question There is a possibility that he would be smothered in senatorial verbosity before his colleagues felt the impress of his golden reticence At that a man of his wide experience and native determination of purpose ... hardly fail to slow up the wheels that revolve so erratically in the average senator s brains

There is no doubt that Mr Coolidge if nominated would be elected Whether or not he would be willing to accept a nomination that meant giving up a well earned repose for the hurly burly of public life from which he has so recently escaped can not be so readily answered Once before there was talk of drafting him Only a high sense of public duty is likely to induce Mr Coolidge to return to the melee Any attempt to force him into involuntary servitude to political interests would rest being met by another I do not choose to run which he would adhere to again with the granite loyalty to a ... he ... for their firm base—Detroit Free Press

FASCISM DOMINANT

All in all the results of the election in Italy are not surprising That ninety per cent of the voters who came out to the polls should vote to support the regime of Mussolini indicates that either the Italians are completely sold on the Mussolini theory of the state or else they lack the courage to voice their protest Probably both motives were present As to the proper interpretation of the election it would be well to regard it not as an election at all but rather a formal celebration of the triumph of Fascism

When voters are led to the polls in a wave of enthusiasm that sweeps all opposition away and must vote a ballot that is only technically secret it can not be called an election for there is no choice permitted the voter The whole affair should be considered as a ... pageantry a formal ceremonial calculated to make more vivid the immense power wielded by the Fascist party In this sense the election was an unqualified success—that is to say it was a colorful spectacle appealing to the love of the ... in the Italian people

Mr Curry went to the room he usually occupied on his visits to Valhalla Notch and changed into dry clothing At length avoiding the other visitors he went to the library ... a little as he found another man there before him

Hello he said shortly Don t you want to go to your room and change

Thanks but I am fairly comfortable The other man as short as Mr Curry but with features that seemed curiously ill assorted was smoking a cigaret contentedly that is of course unless you want me to clear out Curry I have a feeling you don t like me It grieves me—it really does Curry As the great Horace once remarked Ostendum perrat maglis The ancients had a way of expressing their thoughts with beautiful simplicity But I perceive I am in the way I ll toddle along Bye

He turned away He stuck the wooden cigar back in his mouth and walked out of the hall deciding he would question John in detail before he took any action

The lower rooms were deserted for the company had gone to their rooms to rest They had spent the night in Portland and the downpour had begun soon after they started out in the morning growing constantly worse as they drew deeper and deeper into the mountains

Mr Curry had counseled a stop-over along the way but to this Mrs Martenet and some of the other members had objected and he had not pressed his advice He had viewed the entire project of the trip with disfavor but Mrs Martenet had insisted that he come along and advise her concerning an investment that had been suggested to her by certain ...viduals who were contemplating bu ding a summer hot l in the vicin... of Valhalla Notch

No sir said the caretaker thoughtfully She s smallish and looks sorta childish but I wouldn t say she was the fainting kind

Mr Curry smiled thinly Did she faint before or after the face appeared

It was afterward First she let out a scream then pointed at the face It was after that she fainted

Mr Curry nodded absently Well I suppose the sight was creepy enough to make any woman faint Yet you say she isn t the fainting kind It may be significant that she didn t faint until the face appeared On the other hand it may mean nothing at all But just suppose John— He paused

John shook himself

Yes sir I ve been supposing a bit along that line myself Maybe— He swallowed hard Maybe she d seen the face afore Maybe she recognized it

Madge Reveals Noel s Secret to the Others

CHARACTERISTICALLY it was Lillian who relieved the ... al tension of th ... colloquy ... Noel s announcement that he ... not attempt to see Mary while ... George was confined to the ... With a little smile ... ... and looked at the ...

In the first place I said ... speak of a matter cruelly embarrassing to Noel but which must be understood by you Because of Prince ... Olina s insistence—she has the ... of her rank that her wishes are commands—I ll tell you that I believe Mary s engagement to Prince Georges is solely the result of plans ... Noel s betrothal For the present ... falls on account of this accident ... betrothals must go on But I think all of us here are hoping and expecting that these royal young visitors will realize of themselves that their romances are simply illusions with no real background of affection or companionship behind them

As I paused Lillian and Harry nodded emphatically and Noel s eyes wide in his scarlet embarrassed face brightened perceptibly

When that time comes however I went on Noel is going to face something very unpleasant in his father s anger no matter who is at fault for the breaking off of his betrothal to Princess Olina As you know his father controls all of his patrimony save a pittance But I think Noel has in his possession a weapon with which he can carve out financial independence and artistic fame for himself

Lillian rose and crossed swiftly to the boy and put her hands kindly but compellingly on his shoulders.

Don t you dare speak again until Mrs Graham has finished she said with a little laugh We ll listen to all your apologies after Just now we want to hear this story

There isn t much more of it I said and I ll preface it with an introduction Mrs Underwood—also Mister I made a mouse at Harry— may I present Mr Boris Raminoff a young composer of whom you may have heard

Both the Underwoods looked in astonishment at Noel for an instant then Harry struck his fist against his knee

By the great horned toad of Arizona he said that takes the cake ... Boris Raminoff Why ... ... why didn t you ... that before

Noel shrugged his shoulders

What would I have been the use? ... asked It s a nice name and it s created ... comment ... ... me But it s money ... ... practically nothing

Of course it is with ... ... He stopped and looked shrewdly ...

There s something more Isn t there? he asked Come a ... sister what s on your mind This boy s ... modest to dish the beans properly Let s have the rest of the story

Yet my wash is never scrubbed or boiled

How my secret amazed her!

I COULD have laughed aloud to see how puzzled she was I guess she never saw such gleaming, snowy linens

"Is this cloth new?" she demanded

"New?" I laughed "I've had it ever since I was married "

"But my linens are ding yellow—I can't understand it. Some of my tablecloths are threadbare from scrubbing, yet they never look as white as this "

A glow of pleasure surged through me I knew I was a good housekeeper I wouldn't think of permitting my wash to be scrubbed . . . why, that's so old-fashioned!

"My linens never touch a washboard," I said—enjoying her amazement.

"Then how does your laundress get them so much whiter than mine?"

"I have her use Rinso—you know, the granulated soap It soaks out dirt It gets clothes so white, scrubbing and boiling aren t necessary That saves clothes "

"You mean to say a mere soap can make such a difference?"

"No other soap is like Rinso! Its suds are the richest, creamiest you ever saw. One cupful of this granulated soap goes farther than two cupfuls of those lightweight, puffed up soaps "

"I must get some Rinso *tomorrow!*"

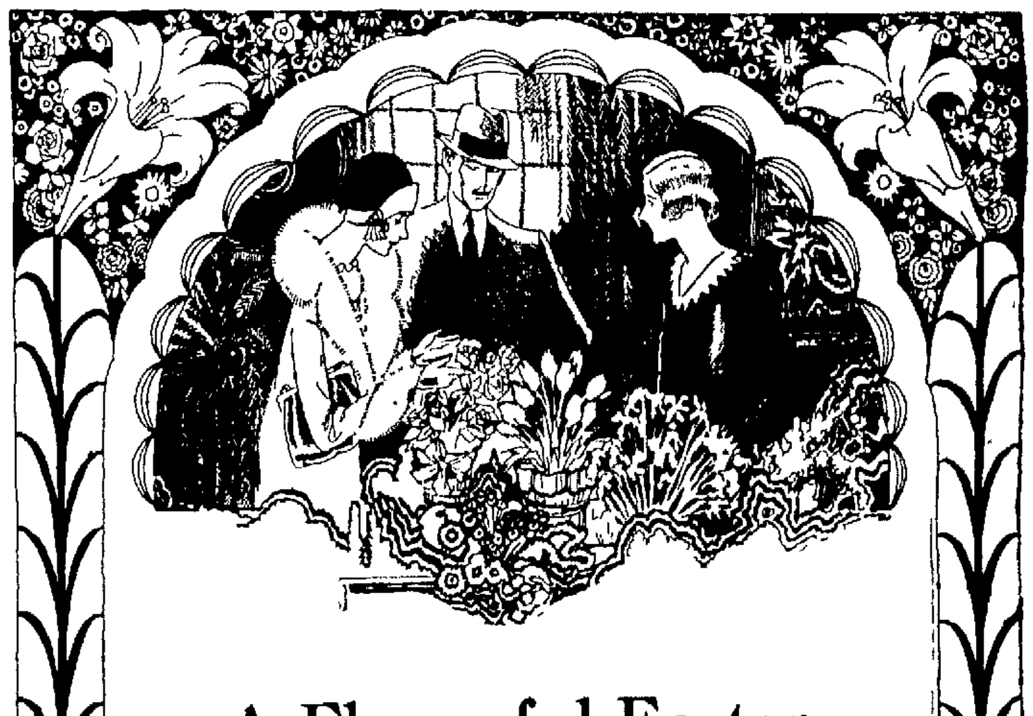

***Safe* — for tub or washer**

Rinso suds are safe. The makers of 36 leading washing machines recommend this famous granulated soap. Great for tub washing, too.

Rinso's thick suds are also marvelous for dishes—loosen grease in a flash. *No grit.* Get the BIG package of Rinso now.

AURORA ATTORNEYS DEMAND GRAND JURY

Want Special Session, Charging State's Attorney Shows Prejudiced Attitude

AURORA, Ill. ... 2—Formation was begun ... for a special grand jury ... dry raid ... Mrs Joe ... King was shot to death ... clubbed unconscious ... year old son to ... one of the intruders ...

Attorneys Robert A. Milroy and ... J. Kelley representing the De King family and backed by many prominent Aurora citizens are leading the fight to take the investigation out of the hands of State's Attorney George Carbary whom the De King lawyers assert has indicated a prejudiced attitude against their clients.

Carbary a pronounced dry elected on a pledge to mop up Kane county vowed he would resist the calling of a special grand jury saying he would conduct his own investigation. He reasserted his conviction that the raider who shot Mrs De King in her home acted in self defense.

Announce Plans

"The deputy sheriffs forced their way into the De King home and found a jug of wine in the basement" attorneys for the family said in announcing their plans.

De King drove the deputies out at the point of a gun, permitting one to stay and drink wine with him while they discussed the situation.

The two deputies went to Geneva for reinforcements. They came back wearing bullet proof vests and carrying machine guns, revolving shotguns and tear gas bombs.

Ray Smith a deputy sheriff and a motorcycle policeman sneaked up behind De King, swung his gun over De King's head and shot Mrs De King who was telephoning Attorney Milroy for help and narrowly missed killing the boy Cyril.

Then while Mrs De King was crawling on the floor and gasping for breath one of the other deputies threw a gas bomb in the room and Mrs De King died immediately.

No one can afford pimples

HAPPY is the woman who has a clear, smooth, flawless skin! Both men and women admire such captivating loveliness.

First impressions cannot be good without a clear skin—first impressions are quickly made and are not soon forgotten. Old friends may excuse pimples and secretly sympathize but new acquaintances may not be so charitable. Skin blemishes are not inviting. Neither can they be covered up. They embarrass. Hold people back. Steal away joy and happiness.

A lovely—clear skin—is within the reach of all. To those who have lost it, hope is offered. You too, may have a beautiful skin rose petal in texture, pretty as a picture and without a single pimple.

The way to the Skin is through the Blood

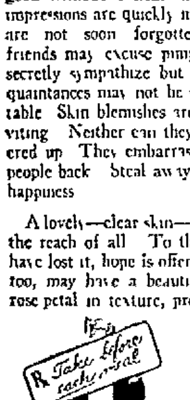

Strong healthy blood nourishes the body and fights against infection and disease.

Without plenty of rich red blood there could be no strong, sturdy, powerful men, or beautiful, healthy women.

Many thousands have regained their strength and charm by taking S.S.S. It is Nature's own blood tonic for raising the body's power of resistance to disease, improving the appetite, building firm flesh, and clearing the skin. S.S.S. promotes constructive metabolism (healthy body building). It increases the number of red blood cells.

When you take S.S.S. to get rid of pimples, boils, eczema and such skin troubles you are building up the system to ward off the grave diseases of which these blemishes are Nature's warning.

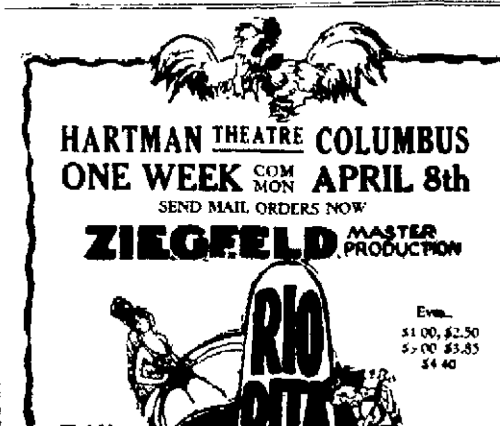

S.S.S. is made from fresh vegetable drugs and has a successful record of over 100 years back of it.

S.S.S.

All drug stores sell S.S.S. Ask for the larger size. It is more economical.

National Defense Should Be Large Enough to Halt Attacks on Us---Coolidge

President Would Have Others See Great Deal of Peril Involved in Assailing Our Country; Begins Series of Articles

PHILADELPHIA, March 28—Calvin Coolidge, writing in the April issue of The Ladies' Home Journal on "Preventing Peace Through Preparation for Defense," says the forces [illegible] adequate national defense should be large enough so that [illegible] see that there would be [illegible] of peril involved in attacking us.

"It should not be so large," the president says, "that our neighbors would feel that we would [illegible] no peril in attacking others."

The article will be the first of three by Mr. Coolidge to appear in The Ladies' Home Journal on the subject of preventing peace.

"The duty of a government is order," continues Mr. Coolidge. "We are told that it is heaven's first law. In our day, we have come to take order for granted as something almost self-existent. But it is not. In fact, it is very difficult to maintain as we are constantly reminded by recurring wares of crime, and the outbreak of warfare. Order is of the first importance, because without it we could have no liberty and no progress. Property would be of little value, every home would be insecure and all life in danger.

Want Protection

"When the test comes, the people will give up almost any other human right to secure safety and protection. Whenever anarchy imperils a state, a military dictator always appears, because the people prefer him to the lawlessness of the mob".

"One of the methods," Mr. Coolidge writes, "by which each government undertakes to preserve order so that it may protect its people from domestic violence and foreign hostilities is known as preparation for national defense. The great object that it all seeks to accomplish is peace, peace for the citizen at home and peace for the citizen abroad.

"Preparations runs all the way from the policeman on the corner, who is our first line of defense, to the army and navy, with their supporting fortifications and bases.

"Our army can be small because we are peaceful at home and far removed from an attack by land. Also an army can be assembled quickly. Our navy is more extensive because our shores, our great commerce and our distant possessions must be protected, and it takes years to build a warship."

Just Human Nature

Declaring "no sure way has ever been found to prevent war," Mr. Coolidge says "opinions may differ as to whether nations with adequate military forces are more likely to enjoy peace than those which neglect their defenses. In the last analysis, this is a question of dealing with human nature. Everyone knows that if there were no police, our cities would be ransacked within 24 hours.

"I very strongly suspect that if there were but one nation in the world supplied with an army and a navy, and, to make the supposition as strong as possible, if that nation were our own, it would not be long before the other nations had been overrun."

"It seems to me that it is almost a moral certainty that we should find some excuse for taking that action. But when we know that other countries have a considerable ability to defend themselves it is human nature for us to regard them with a more wholesome respect and be more careful about violating their rights.

"If we reverse this picture we can likewise conclude that if others know we are prepared to defend ourselves they will be less likely to commit offenses against us."

CHILD VICTIM OF FIRE IN MOTHER'S ABSENCE

COLUMBUS, March 28—Breaking a promise to her mother that she would not go near the stove during the latter's absence from the home, little 3-year-old Mary Evans is dead today, the victim of burns.

Soon after her mother had gone to the grocery store, the child is believed to have gone to the kitchen to play with a lighted gas burner and to have ignited her clothes when she turned the flame higher.

REPUDIATES CONFESSION THAT HE ROBBED BANK

DEFIANCE, March 28—Repudiation of a confession today had materially weakened the state's case against Joe Kowalski, 22, Monroe, Ind., alleged bank robber on trial in common pleas court here for being one of the four gunmen who held up and robbed the Hicksville National bank near here, of approximately $9,000, Feb. 27.

Melvin Halterman, 21, Alexandria, Ind., who confessed to his part in the holdup, testified that when he signed the confession implicating Kowalski, he put his name to a false statement, a statement that was a lie.

MT. GILEAD YOUTH INJURED AT PLAY

MT. GILEAD, March 28—Edwin Brown, student of the sixth grade in the local school, was removed to the office of Dr. C. S. Jackson, from school yesterday afternoon, for a treatment of his right ankle, which at first was thought to be broken, but after an x-ray picture was taken of the fracture, in the doctor's office in the evening, it was found that the ankle was only sprained and bruised. The injury was sustained at recess when Brown and some of the other boys were playing in the basement of the building and William Richie accidentally fell on Edwin's right leg.

Prescription He Wrote in 1892 is the World's Most Popular Laxative

When Dr. Caldwell started to practice medicine, back in 1875, the needs for a laxative were not as great as they are today. People lived normal, quiet lives, ate plain, wholesome food, and got plenty of fresh air and sunshine. But even that early there were drastic physics and purges for the relief of constipation which Dr. Caldwell did not believe were good for human beings to put into their system. So he wrote a prescription for a laxative to be used by his patients.

The prescription for constipation that he used early in his practice, and which he put in drug stores in 1892 under the name of Dr. Caldwell's Syrup Pepsin, is a liquid vegetable remedy, intended for women, children and elderly people, and they need just such a mild, safe, gentle bowel stimulant as Syrup Pepsin.

Under successful management this prescription has proven its worth and is now the largest selling liquid laxative in the world. The fact that millions of bottles are used a year proves that it has won the confidence of people who needed it to get relief from headaches, biliousness, flatulence, indigestion, loss of appetite and sleep, bad breath, dyspepsia, colds and fevers.

Millions of families are now never without Dr. Caldwell's Syrup Pepsin, and if you will once start using it you will also always have a bottle handy for emergencies.

It is particularly pleasing to know that the most of it is bought by mothers for themselves and the children, though Syrup Pepsin is just as valuable for elderly people. All drug stores have the generous bottles.—Adv.

VOTE FRAUD CASES MAY BE DROPPED, RELEASE 3

CLEVELAND March 28 — The possibility of further prosecution of vote fraud cases here seemed doubtful today following the acquittal of Charles Lolizzi, John A Lanese and Leonard Infante late yesterday.

The three are former election booth officials and were under indictment with about 37 others for alleged irregularities in the primary election here last August. Attorney General Gilbert Bettman who is prosecuting the cases admitted that he was keenly disappointed in the verdict and Raymond J Kunkle his assistant scored the jury calling the acquittal a travesty on justice.

Mabel Proves Nemesis To "Scarface Al"; Gangster Held On Contempt Charge

Double Pneumonia and Aquatic Sports at Miami Beach Do Not Harmonize, Mrs Willebrandt Discovers on Investigation of "Sick" Affidavit

CHICAGO March 28—They have finally pinned something on slippery Alphonse Capone the big arms and ... of Chicago and Miami.

Credit for the achievement goes to a woman backed by the power and resources of the United States government.

Alphonse, better known as Scarface Al, consequently is at liberty today under $5,000 bond as the result of a citation for contempt of federal court. His nemesis is Mabel Walker Willebrandt, assistant attorney general, and in her own way, quite as noted as the great Capone.

Some weeks ago, while Capone was frolicking at Miami Beach, he received a subpoena to appear before the federal grand jury here.

The gang chieftain replied with an affidavit signed by Dr Kenneth Phillips which declared his health had failed, he was sick with double pneumonia, pleurisy spots before his eyes and lots of annoying symptoms. Chicago, he was sure, would be the death of him, so he would try to drop in some other time.

And he did drop in last week and courteously went before the grand jury and seemed genuinely sorry he didn't know anything to tell the gentlemen about bootlegging and please hurry for he had to rush back to his *royal palm grove*.

Every one was so nice and polite to him.

Mrs Willebrandt stepped into the case. She was puzzled about Mr Capone's health. On one hand for instance was his affidavit, on the other newspaper pictures showing him doing cart wheels and aquaplaning.

Aquatic sports and double pneumonia do not harmonize.

Mrs Willebrandt sent investigators to Miami. And they reported that at the very time Capone was suffering, most by affidavit, he was fishing, swimming, swan diving, cabareting and taking in the races.

Yesterday Federal Judge Charles J Woodward issued the citation for him to show cause why he should not be held in contempt of court and required him to put up bond of $5,000.

If adjudged of contempt for filing a false affidavit he may be sentenced to serve a year in the county jail and to pay a fine of $1,000.

EAGLES ARRANGE BOOSTER MEETING

...on Next Week Expected to Be One of Largest in Lodge History

...one of the largest pep ...gether meetings in local ... history were completed at the regular weekly meeting of Buckeye Aerie No. 337, Fraternal Order of Eagles, held last night.

The meeting next Wednesday night has been designated by state lodge officers as the night for statewide meetings. This does not mean that the different lodges will come together for the meeting but will do their utmost to get a large attendance out for their own weekly sessions.

A door prize of $100 was set aside at the meeting last night as a special inducement for members to attend. There will be no contest of any kind, but tickets will be given out as the members enter and the lucky one announced at the close of the meeting. No fewer than 700 members are expected to attend next week.

At this meeting plans will be laid for the annual Eagles membership drive. The quota for the local lodge has been set at 402 new members. The drive will start immediately after the meeting and will continue until June 30.

It was also decided at the meeting to sponsor a recreational baseball team this year in the Marion league and also that the local lodge would put a city hardball team on the field every Sunday. Last year the Eagles won the city recreation ball championship and enjoyed a successful hardball season. A bowling team will also be entered in the national Eagles bowling tournament at Columbus in the near future by the local lodge.

Members were also asked to attend the annual Eagles memorial services which will be held Sunday afternoon at 2:30 o'clock in the lodge rooms. It was also announced that the officers of Buckeye Aerie would initiate a class of candidates at Johnston, O., on Monday, April 1.

PROFIT BY MISTAKES, EVANGELIST URGES

Apostle Peter Cited as Example of Possibility of Man Who Errs

"Peter well illustrates what God can do in a life," Dr. John Paul said in his evangelistic sermon preached last night at Epworth M. E. church, on the subject, "Peter Followed Afar Off."

"A boastful and a compromising spirit as well as other well known symptoms which precede a fall were Peter's. Peter had light upon his coming collapse, for Jesus had foretold it. But light does not save people; it is grace that saves men and women. Many a man of science dopes his body, or otherwise sins against himself and God, with more than usual light upon the evil consequences of his way. We should capitalize our mistakes and failures that others about us may be delivered from failure.

"There is always an abiding interest in this robust, impulsive, sinning apostle," Dr. Paul said, "who, though following afar off, yet followed, and ere long came to an upper room where his speed was so quickened that he ever after remained dependable and loyal to his Lord and was the instrument of great achievement for the Kingdom of God on earth. Though formerly unstable, he became the rock of foundation for the cause of Christ."

"Redemption's Story" will be the theme for the sermon of Dr. Paul tonight, which has been designated as Sunday School night. A large congregation is expected to hear this sermon.

RIVER CAPTAIN DIES

GALLIPOLIS, March 28—Capt. Frank Gloeckner, 81, prominent in city politics here and in his youth a pilot of Ohio River craft, died at a hospital here of injuries sustained recently in an automobile accident at Pomeroy.

TAKE STEPS TO OUST MAYOR PETER GROH

Beetham and Cooper Confer and Former Files Charges Against Dover Man

COLUMBUS, March 28—The machinery of impeachment, which will grind out the fate of Mayor Peter J. Groh, of Dover, Ohio, reformer by day, and by night an alleged "convoy" of liquor traffic through the city, slipped into motion here today.

Mayor Groh will be brought before Gov. Myers Y. Cooper here next Tuesday afternoon to answer to charges of misfeasance, nonfeasance and malfeasance in office, all growing out of his alleged acceptance of a $50 bribe from a state prohibition agent, masking as a bootlegger who wanted to run a carload of whisky through his city.

This became known when State Prohibition Director B. H. Beetham appeared before the governor late yesterday afternoon and preferred the charges against the Dover mayor, who recently led the fight against Sunday movies in his city, and who once led the crusade to "straighten out" the town's confirmed drunkards.

Meanwhile the mayor is enjoying his liberty under $10,000 bond.

According to indications here, the mayor will be asked to resign from office, the same method which the chief executive used in removing Bert B. Buckley from the office of state treasurer after he became involved in the Cincinnati "beer-brewery-bribery" scandal.

Besides allegedly accepting the $50 bribe, the mayor, on one occasion stopped a truckload of liquor, tasted it, and then allowed the "runners" to proceed, Beetham charged.

COUNTY TOURNAMENT ENTERS FINALS

HARDING HI-Y FIVE FAVORED TO DEFEAT SHOVEL IN FEATURE

Six Teams Will See Action on Y M C A Court Tonight

BY BOB ELLIOTT

SIX teams will battle tonight for the amateur basketball championships of Marion county in the final rounds of the county amateur tournament scheduled for the local Y M C A at 7 o'clock At this time the Marion Four Point Pioneer Club will meet the Waldo Wildcats for the championship of the Class C division One hour later the Class B togs will be at stake when Harding Juniors tangle with Central Junior Harding Hi Y will battle the Marion Steam Shovel for the A championship at 9 o'clock

These three games tonight will be the last of the court sport until next season and this fact alone is expected to draw a good crowd to the finals

Four Point Pioneers and Waldo are expected to put up one sweet scrap in the C final before one or the other succumbs Four Points have played two games and won both by rather decisive margins In the first round they beat Central Christian while in the second round the Trojan Pioneer club fell by an overwhelming score Waldo rosed out the Vernon Heights Torch club in the first round and then drew a bye into the finals The tipoff question will be debated long and loudly by Guthrie of the Pioneers and Gerlin of Waldo The Four Points attack will be worked around Whitcum pint size forward who scored 18 points in the semi finals last Tuesday night

Harding Juniors will enter their game with Central as favorites but only by the narrowest of margins If Price Central center is lack in the lineup the freshmen must be given more than an even chance of upsetting the dope bucket and carrying away a win but if he is absent we have grave fear that it is going to be too bad Even with Price in the line up Central has yet to show a man capable of holding Pfeiffer Junior center in check This man will have to be blocked out of his fellow shots or the final score will resemble Henry Ford's income for the past 10 years

It is not denied that the juniors could use a little more teamwork and not quite so many long shots but as long as they're making the long shots it's all O K Bill Adams chunky colored forward of the Hardingites is almost a dead shot when in the open from any distance The Junior guards Klingel and Pehler are expected to hold down Pickerel and Morgan without a great deal of trouble Pickerel is not expected to duplicate his scoring feat of the semi finals when he scored seven field goals

One of the seven wonders of world plays in the final game of Class A and we don't mean the Hi Y This Steam Shovel quintet has taken victories over United Brethren Waldo Clodhoppers and Standard Oil to reach the finals All three of these teams were given *sight odds to defeat* the Shovelmen but here they are in the finals and how U B is fell by a score of 30 to 2 in the first round Clodhoppers were downed 34 to 20 next and the Oilers finished on the short end of a 35 to 22 tally in the semis Regardless of all these details the Steam Shovels enter the finals a decided underdog Maybe they'll pull the same trick they have done the entire tournament Maybe for once the dope bucket will run true to form However the odds will not be so great and perhaps by game time there won't be any odds

There is little doubt but that the Hi Y here is the sensation of the tourney but they can be beaten It will take a good team and a team that can play a man to man defense nearly all over the floor It's a zone defense and the long shots of the school boys will wreak their vengeance If you play a five man or man to man defense you've got to watch the quick breaking offense with Gillis Roush and Walker in the leading role

Keller and Gastner will probably hold the Shovel forwards well in check Hi Y has an impressive record so far in the tourney The first round they defeated the Business College 39 to 18 then the Cole Twins Aces were walloped 20 to 10 and last Tuesday the Pleasant quintet was smothered under a 41 to 16 to score

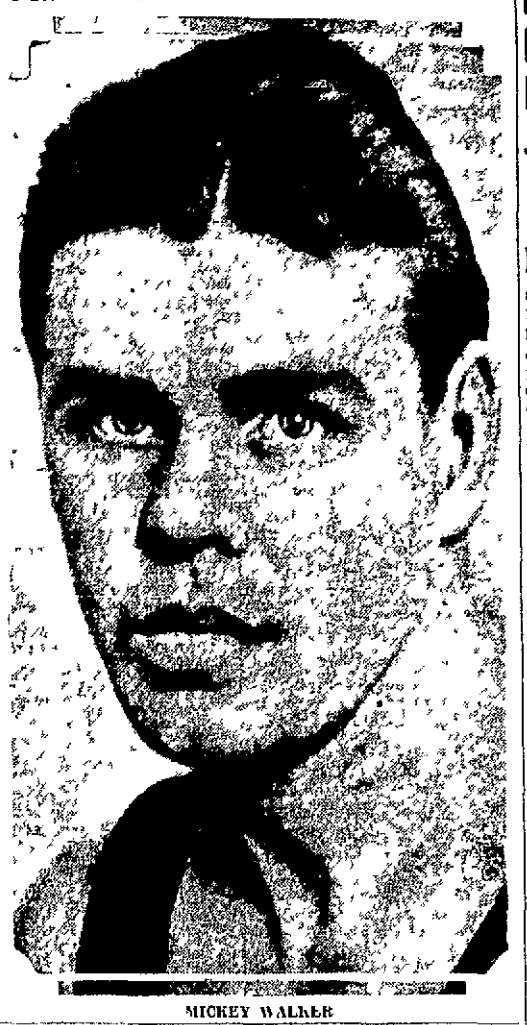

Francis Bacon will referee Class A tonight with Bud Lewis and Hugh Stitts in charge of the C and B finals

DU PONT MILLIONS MAY BACK DEMPSEY IN WAR ON GARDEN

Jack Goes into Conference. Carey's Miami Contract in Hot Water

BY DAVIS J WALSH

NEW YORK March 28—Details of a financial arrangement between the Dempsey Fugazy combine and the Du Pont millions were supposed to be going forward to a conclusion today thereby if true assuring Tex Rickard's legacy at Madison Square Garden a very nice reliable war chest Meantime the word from Florida was that the Gardens five year arrangement for the conduct of the winter fights at Miami is under the sentiment in the American Legion being alleged to be somewhat pro-Dempsey and considerably anti Garden The latter through its president William F Carey has a contract with Miami but nothing is possible in Florida boxing without the American Legion Carey is understood to have irked the latter no end by criticising the work of legion ushers at the Sharkey Stribling fight

Just how intimate if at all may be the hook up between the Dempsey Fugazy enterprise and the Du Pont interests the writer doesn't profess to know The mysterious Mr Cole who wrote the checks that convinced Dempsey that other people's money is always good at the bank has hinted darkly about his backing but somehow the name Du Pont has been allowed to escape during the general chit chat The impression thus created was that the Du Ponts were privately interested but publicly aloof

Leaves New York

Be that as it might Dempsey had a reservation on an early train out of New York this morning and his organization made no secret of its understanding that his destination was Wilmington Del and a conference with Du Pont officials According to one version assurances of financial support already have been given and Dempsey's visit therefore was to come in the nature of a formal greeting and get together

He will be back in town by night fall and tomorrow will begin working out at Artie McGovern's gymnasium while the cameras click and the cranks whirl A well developed sense of the dramatic keeps this gentleman doing the right thing at the proper time Nobody knows whether he is going to fight or not and he figures to keep nobody knowing indefinitely Meanwhile he will keep speculation climbing high in the Fahrenheit scale by training just enough so that no one will be able to call the turn on him until he is ready to call it for himself

Gets Distinct Break

That time will come when it is obvious that he must declare himself either as a promoter or a fighter for the New York commission probably will decline to be a party to any arrangement whereby a man may be both As long as the doubt exists however the Fugazy Dempsey heavyweight shows will get a distinct break in the fact that it will be tacitly understood that Dempsey is waiting to claim the final survivor for his own This understanding tacit though it may be may result in the breaking overnight of the Gardens monopoly on fights between recognized heavyweight contenders the idea being that if Dempsey really is in the field no fighter can win the title without meeting and incidentally bearing the boy friend

FIRST DEMPSEY BATTLE IN MAY

NEW YORK March 28 — Jack Dempsey and Promoter Humbert Fugazy will start their outdoor boxing program with a show at Ebbets field Brooklyn about the third week in May according to Fugazy They acquired the exclusive boxing rights to the Brooklyn ball park yesterday Dempsey is arranging the opening card

Fugazy said he and the former heavyweight champion planned to hold only big and outstanding fight

Old Gold wins *at* Princeton
in a test of the 4 leading cigarettes

Five upper-classmen comparing the leading cigarette brands in the rooms of the Princeton Inn.

THE DAILY PRINCETONIAN

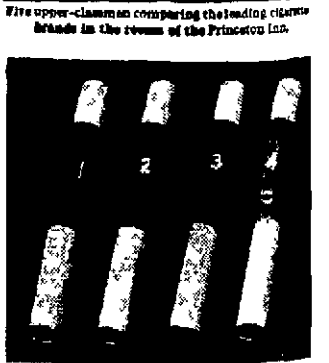

"The Daily Princetonian" was asked by the P. Lorillard Company, makers of OLD GOLD cigarettes, to conduct a test at Princeton to determine which of the four widest-selling cigarettes had the greatest taste appeal.

For the purposes of the test the four leading cigarettes were "masked" to conceal the brand names Undergraduates were asked to smoke the four brands without knowing their identity. The cigarettes were numbered, and the men merely chose, by number, the one that appealed to them most.

The test was made at eleven Princeton upper-class clubs and at the Freshman Commons on January 11th to 16th In all, 303 students smoked and compared the four cigarettes The test was conducted in a perfectly fair and impartial manner.

The results show that "Cigarette W" won 75 first choices, "Cigarette X" won 74, "Cigarette Y" won 36, and "Cigarette Z" (which was OLD GOLD) won 118 The preference for OLD GOLD was 57% greater than that for the next highest brand.

FOUND KONJOLA AFTER 10-YEAR HEALTH SEARCH

Immediate Health Comes When New Medicine of 32 Ingredients Is Put To The Test

MR. JOHN H. McKETTERICK

"It took me ten years to find the *right medicine,*" said Mr. John H. McKetterick, 26 State street, Washington, C. H., Ohio, "but I certainly found it in this remarkable Konjola. For ten years I had indigestion so bad that I thought I had reached the point where I was beyond relief. After every meal I suffered intensely, *no matter* how little I ate. My digestion simply was not on the job, and my food soured in my stomach. Often in these ten years, I had to *stay* in bed, unable to get up and about.

"A friend suggested Konjola, but I did not take him seriously. But at last he talked me into trying it, and I soon found out that he knew what he was talking about. With the very first bottle I noticed improvement. In two weeks after starting with Konjola, I found myself eating regular meals again, and digesting them. My bowels are perfect, and the poisons are being taken from my system. I am feeling better all over than I have in years. I can readily understand why Konjola is known as the medicine with more than a million friends."

Konjola is different than any other known remedy in this section. It contains twenty-two juices extracted from natural plants which invigorated the stomach, liver, kidneys and bowels to a more healthy action. The effect of this Konjola on the entire system brings amazing relief in cases of suffering that has been going on for years. At the same time many weak and rundown systems have been restored to a new state of health through this compound. Such a vast number of men and women in this city have told of their experience with this new medical product, until now, Konjola is the most highly indorsed medicine that is known in this section.

Konjola is sold in Marion at Stamy & Sons Pharmacy and by all the best druggists throughout this section.—Adv.

WITH STAR STAFF

Floodgates Open

NEIGHBORS and nodding acquaintances certainly get a different slant on one another if they sit in neighboring seats at the current picture at the Palace theater this week.

Sitting in the last row downstairs Tuesday night, it was touching and at the same time funny to see strong men using hankies freely and weak women succumbing to floods of tears. There was one woman in the audience who was thought by this reporter to be just about as warm-hearted as a frozen klondiker. When she finally got out the linen square and began daubing her eyes, one mind in the audience registered her about 50 points higher in its estimation.

One little boy hee-hooed and cried in a most heart-rending fashion when Sonny Boy died, adding further to the tightened heart-strings of those around him.

They Sing of Lindy

THE girls will never recover from that terrible crush they have on "Lindy," it seems. Lindy won a permanent place in their hearts when he did a solo flight over the yawning expanse of the Atlantic, and after that, well, the women haven't revived from the headline stories yet.

Monday night, the balmiest night this spring, several girls were ensconsed on a porch swing of their home on Oak st., "rendering" a sentimental ditty about Lindy and his lonely trek via 'plane, winging his way across the wet Atlantic.

Not only did they sing the chorus once, but they repeated it twice and were on the third round when the reporter's steps faded into the distance.

Watchful Parent

THE awful futility of a mother dog caring for her puppies is something to wonder at, and, of course, in human fashion, to smile at.

A small ann-tan fluff of a collie pup was seen racing down the street the other day, hot in pursuit of an automobile that was perhaps bearing its owner. The puppy was so tiny and its legs so short, not more than two inches long, that the race was a struggle.

Suddenly around the corner came a big, mother collie, with a broken rope dragging the ground, tearing down the street after her baby. But what could the big collie do, except run along beside her puppy until it tired.

If the dog had been a cat she would have caught up with the offspring, lifted it by the back of its neck and toted it home, dangling from her mouth.

Burying the Poor

MARION has no Potter's field in connection with its cemetery. There is no free land for the burial of the poor, as in some cities, but the county institutions that will probably a tract of land adequate to care for the burial of all poor and inmates of county institutions that will probably care for these people for the next 20 years.

There are, on the average, six to eight bodies buried in this section of the cemetery each year at the expense of the county or township. Most of these are former inmates of the county home, with an occasional poverty stricken person who had no near relatives. These, according to E. A. Sloan, superintendent of the Marion cemetery, are very few. Most of them have a small amount of insurance, a few friends or relatives who provide funeral arrangements for them.

The only noticeable change in the number buried in this section of the cemetery has been with the gradual increase in population of Marion. The influenza epidemic in 1918-19 was responsible for many deaths of this nature, Mr. Sloan says.

RELIEF FROM CURSE OF CONSTIPATION

A Battle Creek physician says, "Constipation is responsible for more misery than any other cause."

But immediate relief has been found. A tablet called Rexall Orderlies has been discovered. This tablet attracts water from the system into the lazy, dry, evacuating bowel called the colon. The water loosens the dry food waste and causes a gentle, thorough, natural movement without forming a habit or ever increasing the dose.

Stop suffering from constipation. Chew a Rexall Orderlie at night. Next day bright. Get 24 for 25c today at the nearest Rexall Drug Store. C. G. Ungericht.—Adv.

Theme for the Week
"MY MASTER AND BROTHER"

Memory Verse for Thursday
"This do in remembrance of me" (Luke 22:19). (Read: Luke 22: 1 to 20.)

MEDITATION: The scene in the Upper Room is the despair of art and every properly Leonardo's great painting is fading on the wall at Milan. The theologian and even the poet fail to express what The Last Supper means to me. When words fail me I resort to gestures which are more expressive than language. So a simple ceremony with the words of institution speak to me in some primitive speech of the heart and I enter the mystery and the glory of life as it is hid with Christ in God. Here I remember and I hope; and all the bitterness of sin and sorrow is dissolved in comfort. Love fills the world.

PRAYER: Heavenly Father who dost make me to sit down at Thy table, break to me the bread of life that I hunger not; refresh me with the mystical wine of life of which if a man drink, he shall never thirst. Through Jesus Christ my Lord. Amen.

Crippled Badly with Rheumatism

Could Hardly Get Around

"Working in a damp place gave me rheumatism so badly I could hardly get around. My joints and knuckles were swollen badly and every muscle in my body seemed to ache. I tried 'St. Jacob's Oil' and got relief almost instantly. Today, thanks to that wonderful oil, I work eight hours a day in all kinds of weather without a bit of trouble."

Good old "St. Jacob's Oil" certainly does knock the pains and aches of Rheumatism, Sciatica, Lumbago, Neuritis and Neuralgia. It penetrates directly to the affected parts and draws out all the pain and misery, and it doesn't burn the skin. Just try a small trial bottle which you can get from your druggist.—Adv.

TODAY'S REVIEW OF YESTERDAY'S GRAIN

CHICAGO, March 28—With the easing of the previous day's tension in financial circles and the consequent rally in stocks, grain traders gained confidence yesterday. While markets were nervous in the early trade, the panicky condition of Tuesday was absent. Low prices were attractive, an opening dip uncovered excellent support and the close showed moderate advances.

Wheat prices finished ¾@1¼c higher. Corn was ⅜@½c up. Oats steady to ⅛c better and rye unchanged to ½c higher. Winnipeg wheat futures closed 1⅛@1¼c up.

Wheat Well Supported

Local sentiment was still very bearish at the opening and prices dropped back under selling pressure based on reports of rains where needed in the Southwest. Commission house buying in good volume appeared when values dropped below $1.20 for the May and for a time the market held to a narrow range, around the previous close with an active trade. Later, short covering brought a moderate advance. Early sellers were reported best buyers late.

While there was still some nervousness over the possibility of further liquidation being induced by the uncertain credit situation, the previous day's sharp break, following on the heels of two weeks of declining prices, has largely changed the aspect of the wheat situation. Hence the buying in the face of general bearish local sympathy.

First of all, a decline of 14c in twelve days of trading had placed domestic values very close to an export basis, removing one of the principal bearish factors. Heavy export sales of Manitobas and durums were made on the break and there were more sales of hard winters. An additional business of 500,000 to 600,000 bu. of Manitobas and durums was reported yesterday.

Winnipeg Strong

Liverpool closed only ⅛@1¼d lower. Winnipeg continued comparatively strong, and some light on the reason for their recent comparative firmness was given by Broomhall, who said, "heavy purchasing of Winnipeg futures has assured English millers of supplies for Spring months, and the break at Chicago was of great assistance in this operation." He added that declining values in North America had created competition for Plate shippers, with the result that Liverpool was not burdened by as heavy offerings from Argentine.

Another development construed as bullish was the heavy liquidation of May wheat. The open interest in that option declined approximately 5,000,000 bu. The total open interest declined 4,500,000 bu, the other half million being transferred to the July. This was estimated as closing out of 4,500,000 bu of May interest which, it is figured, creates a large potential buying power with the development of further favorable news.

Corn Follows Wheat

Corn ruled strong all session and followed the bulge in wheat with buying by shorts and locals. The bullish news in this grain was a revival of the strong Eastern demand in the spot market, with shipping sales of 250,000 bushels.

However, trade continued rather limited in the corn pit and there was little outside interest. Country offerings continued light, but another 50,000 bushels was booked to arrive from outside markets. Weather over the belt was generally fair and favorable, but primary receipts showed a moderate decrease and shipments were heavier.

In the cash market wheat was 2@3c off, in a dull trade. Corn was unchanged to 1c lower; rye dull and barley steady.

Cars inspected: Wheat, 26; corn, 122; oats, 12; rye, 2, and barley 10.

Man always liked to stuff his trousers in his boots; and now he gets leather puttees.

Today in Marion Markets

Groceries, Produce, Meats, Grain, Livestock

Beef prices today maintained the high levels reported yesterday by remaining from two to five cents higher. This is due to the scarcity and changes in weather, in the packing houses increase the price when the market fails to supply them with sufficient meat. Meat prices will not be settled until the warm weather has come to stay, and the meat demand is comparatively light.

There are no changes in the price of vegetables and fruits, with all items at moderate prices. Oranges jumped back to 19 cents a dozen today on Marion markets, from the 12½ cent level reported yesterday.

Eggs, favorite Easter food, will remain at 29 cents a dozen if the price continues as it has been the last few days.

Grapefruit may be had on the Marion markets at 5 for 25 cents. They are exceptionally nice fruit and are quite popular this time of year.
